SOME SUGGESTIONS TO HELP YOU . . .

1. If you have livestock and are short on hay, make liberal use of and plant early as can, Abruzzi or Gator Rye, Oats, Wheat, Rye Grass, Ky. 31, Rescue, Crimson Clover, Wild Winter Peas, etc. Use plenty of good seed and ample fertilizer.
2. On permanent pastures sow White Dutch, Ladino, Ball, Ky. 31, Orchard and Rescue (and Rye Grass, though temporary, to increase winter grazing.)
3. To increase fertility and protect cultivated acres during winter, sow Hairy & Willamette Vetch, Austrian & Romack Peas, Lupines, Crimson Clover, etc.

"SERVING AGRICULTURE SINCE 1900"

In Memoriam

With sadness and regret we announce the sudden death from heart failure of our bookkeeper, N. Tennyson Payne, on Sunday, Sept. 25, 1960. He had served us well and faithfully for 18½ years. His place will be a hard one to fill. Coming at the height of our fall season, it is a double blow. Nearly all of you who have visited our office knew Tennyson. He was 58.

If your monthly statement is late this time or you don't quite get the service which you expect, we hope you will understand.
